Scoot

1. Place one Scoot card on each student’s desk. For easier recording, place the cards in numerical order. Give each student one copy of the Scoot Activity Recording Sheet.
2. Each student will read the question on the activity card on his/her desk and will record the answer on the Scoot Activity Recording Sheet. After a length of time (approximately 1 minute), give the signal for the students to scoot to the next desk. The signal may simply be the teacher saying scoot or a noise such as a bell. The procedure repeats at each desk. The activity continues until all students end up at the desks where they began the activity.
3. I recommend going over the pattern for shifting desks and other rules such as being quiet when scooting, etc. before the activity begins.
