Story Mapping Booklet

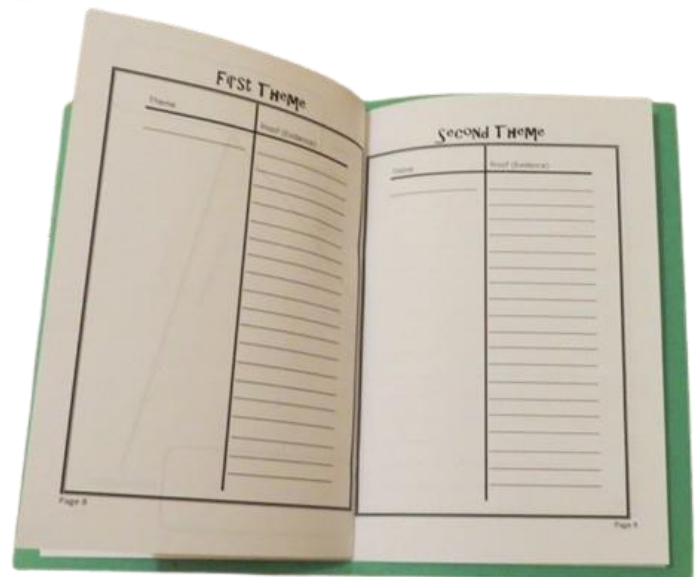

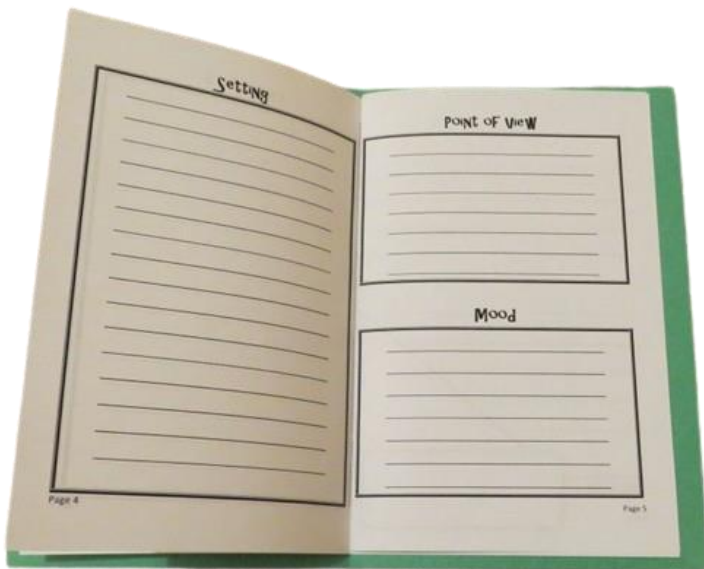

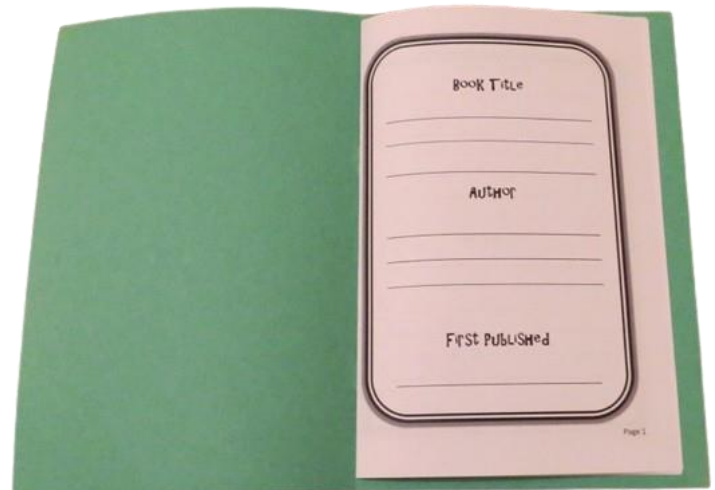

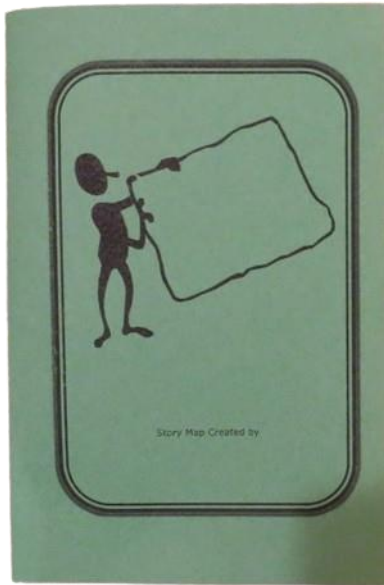

Created by Gay Miller

Story Elements Book

This story map booklet may be used to summarize any book.

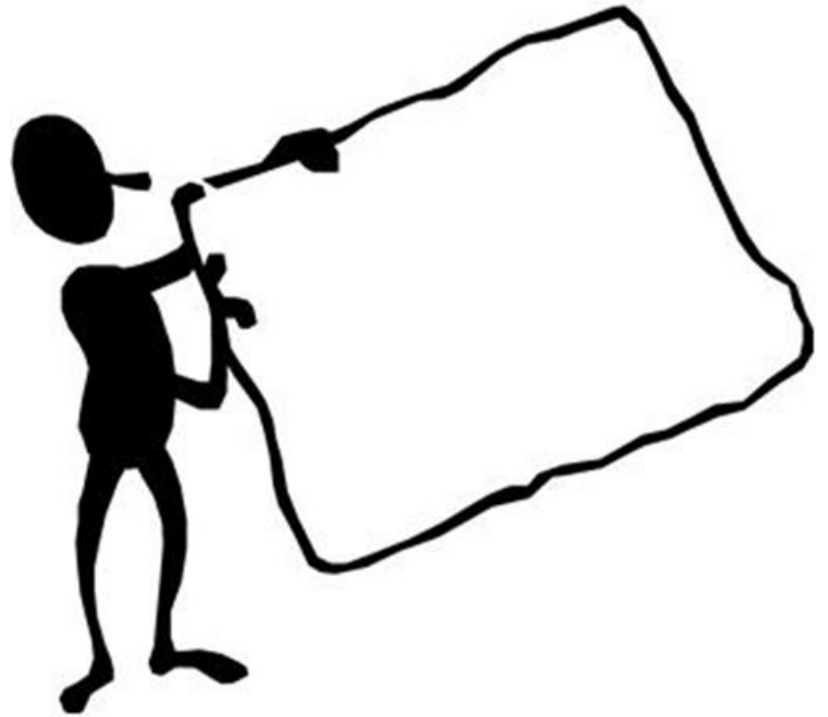

I recommend that you duplicate the cover onto construction paper or card stock. Standard construction paper is 9 by 12 inches which makes the cover a bit larger than the pages inside.

Your pages must be duplicated on the front and the back. I ran my pages front and back directly from the printer. This is a simple process with only three pages. Simply place the page that has been printed on one side back into the printer for the reverse side to be printed.

- Pages 12 & 1 front with Pages 2 & 11 back
- Pages 10 & 3 front with Pages 4 & 9 on back
- Pages 8 & 5 front with Pages 6 & 7 on back

Once you have printed your pages, fold all pages in half vertically (hamburger fold). Staple the pages together in the center to form the book

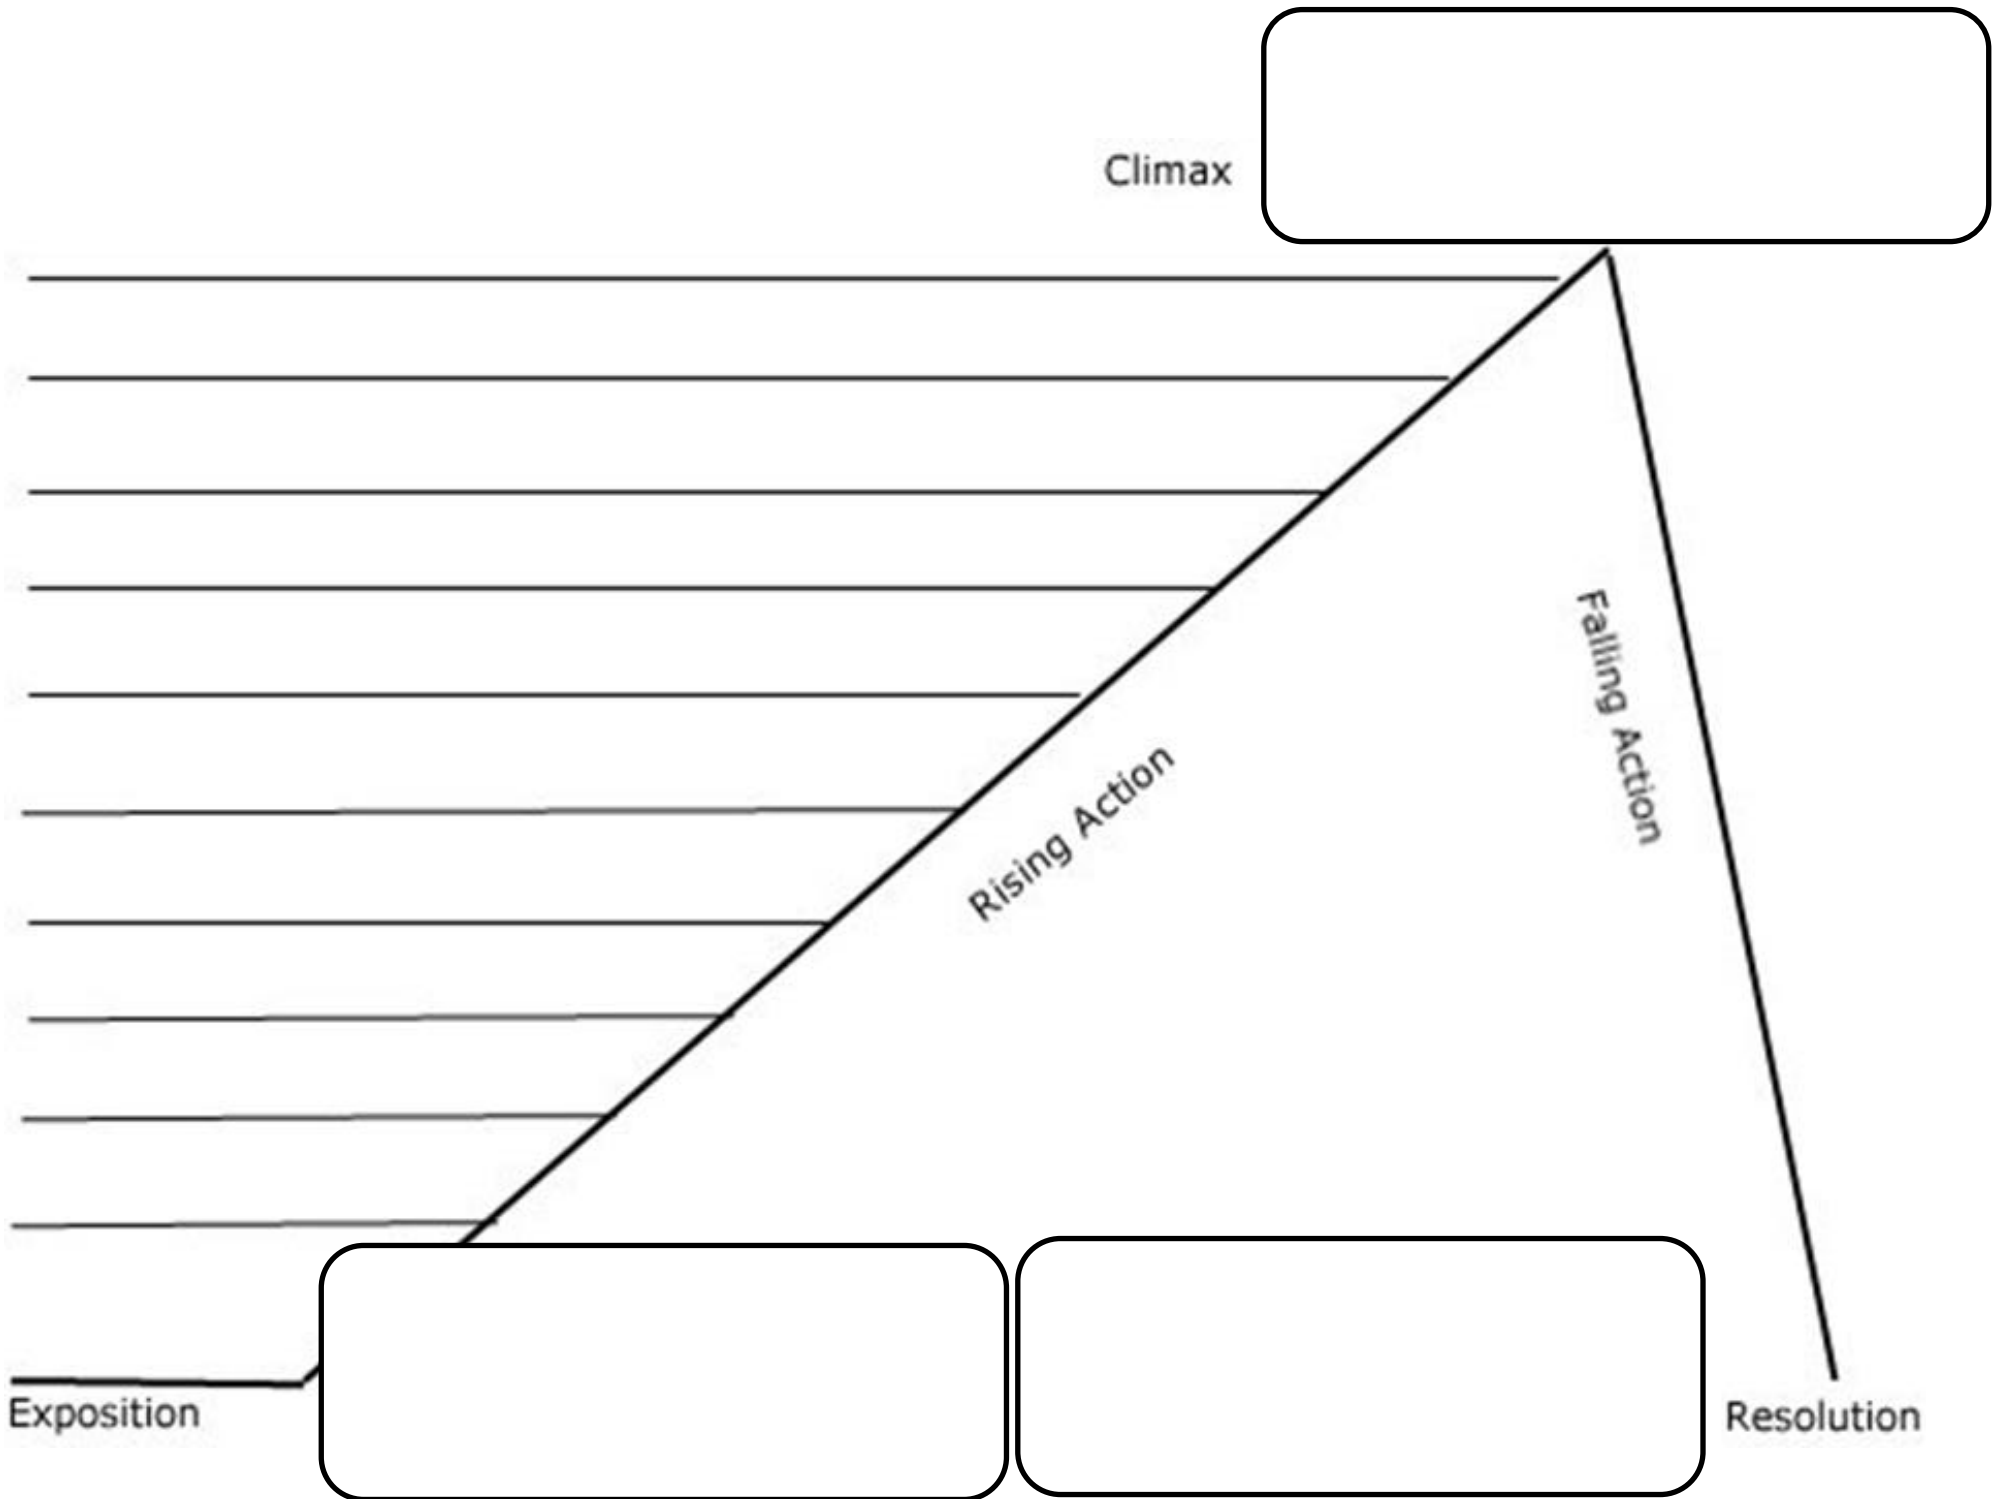

Story Map Created by

CONFLICT

A large rectangular box with a thick black border, containing 20 horizontal lines for writing. The lines are evenly spaced and extend across the width of the box.
