

# Links to Prefix Activities

To prevent readers from becoming lost in a tackle of links going all over the Internet to each activity that I mention in the post, I have created this pdf file with links to all prefix activities or resources.

All the resources are free except for the advertising on the final page.

# Free Prefix Mini Lesson

Digital & Printable Organizer with Teaching Video

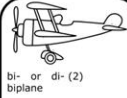

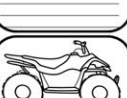

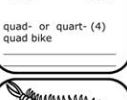

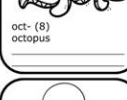

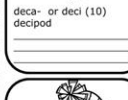

**PREFIX**

Many prefixes have to do with numbers. Learning these prefixes can help you figure out the \_\_\_\_\_ of \_\_\_\_\_ words.

**Examples:**  
groups of musicians "-tet"  
quartet (\_\_\_\_ musicians)  
octet (\_\_\_\_ musicians)  
number of events in an athletic competition "-athlon"  
biathlon (\_\_\_\_ events)  
triathlon (\_\_\_\_ events)  
decathlon (\_\_\_\_ events)

1 2 3  
Set 2 (Numbers)

Fill in the blanks. Add to the list of words beginning with each prefix.

 uni- (1) unicorn	 bi- or di- (2) biplane	 tri- (3) tricorn
 quad- or quart- (4) quad bike	 oct- (8) octopus	 deca- or deci (10) decipod
 cent- (100) centipede	 kilo- (1,000) kilowatt	 poly- or multi- (many) multicolored

# Prefix Flip Book

Gay Miller @ Book Units Teacher

This idea doesn't have a link. I've included the instruction here for a quick reference.

1. First, cut the paper into approximately 1 by 5-inch strips.
2. Next, cut an additional piece of paper 1 by 7 inches long.
3. Stack the pages together with the 7-inch piece on the bottom.
4. Line all the pages evenly at one end and staple them together to form a book with turning pages.
5. Finally, students write the prefix on the 7-inch piece of paper. On each page of the stack, they write an additional word (base word) that can be used with the prefix.
6. The book flips where each word can be read and discussed. Our books contained 8 pages; however, you can make them with more or fewer pages.

## Links to Online Prefix Games

This link goes to a reference page on my website that contains links to websites such as Scholastic, BBC, Hartcourt School, and Houghton Mifflin that offer [free online games](#) for students to practice skills. This webpage contains links to several online games that practice prefixes, suffixes, and/or root words.

Here is another teaching idea without a link.

1. Using large flip chart paper, draw three to four vertical lines to form columns.
2. Next, label each column with one prefix.
3. On sticky notes, write base or root words that form real words when added to **one** of the prefixes listed on top of the anchor chart. Note: When completing this activity for the first time, using base words that only form one real word works best. For example, **turn** only forms a real word when the prefix **re-** is added. Nonturn, untturn, and disturn are not real words.
4. Students place the sticky notes onto the anchor chart in the column that forms a real word.
5. Complete this activity in small groups, as part of a learning center, or as an early finisher project.
